Objectives

- To provide policy guidelines and direction for the growth and development of research activities in college
- To advice on thrust areas and disciplines for introducing research programs and related activities for future development in research in college.
- To suggest measures for improving and implementing both consultancy and sponsored research and enhancing research ambience through funding bodies.
- To recommend projects and implement projects if any from State and Central Governments.
- To contribute to quality publications in peer-reviewed, and journals indexed in web of science and Scopus; and Patents.
- Any other related issue.

Dr. R. S. Bhambar
