7. Pharmaceutical Ethics: Honour personal values and apply ethical principles in professional and social contexts. Demonstrate behavior that recognizes cultural and personal variability in values, communication and lifestyles. Use ethical frameworks; apply ethical principles while making decisions and take responsibility for the outcomes associated with the decisions.

8. Communication: Communicate effectively with the pharmacy community and with society at large, such as, being able to comprehend and write effective reports, make effective presentations and documentation, and give and receive clear instructions.

9. The Pharmacist and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety and legal issues and the consequent responsibilities relevant to the professional pharmacy practice.

10. Environment and sustainability: Understand the impact of the professional pharmacy solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

11. Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change. Self-assess and use feedback effectively from others to identify learning needs and to satisfy these needs on an ongoing basis.

B) Program Specific Objective (PSO) for M.Pharm. Program

1. To inculcate self-learning and excel in core and basic knowledge of technical and professional concepts associated with Pharmaceutical Industry/ Institute and Health Care System through rigorous education.

2. To demonstrate effective planning abilities, utilize principle of scientific inquiry; and learn, select and apply appropriate methods and procedures, resources and modern pharmacy related computing tools.

3. To synthesize, formulate, analyze, evaluate experimental chemical entities, extracts and finished products thereby designing a system to bridge the gap or meet the needs of various realistic constraints occurring in the society.

4. To effectively communicate and develop leadership and team building skills; understand, analyze the value of professional roles in society and honor personal values and apply ethical principles in professional and social contexts.
